Independent Auditor's Report

Board of Directors

Paseo del Este Municipal Utility District No. 10 of El Paso County

El Paso, Texas

We have audited the accompanying financial statements of the governmental activities and each major fund of Paseo del Este Municipal Utility District No. 10 of El Paso County (the District) as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluation the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our audit opinion.

Opinion

In our opinion the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and each major fund of the District at September 30, 2020, and the changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the budgetary comparison information identified as Required Supplementary Information in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Texas Commission on Environmental Quality Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The supplemental schedules required by the Texas Commission on Environmental Quality are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental schedules required by the Texas Commission on Environmental Quality are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedules required by the Texas Commission on Environmental Quality are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

The other information listed in the table of contents has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

**PASEO DEL ESTE MUNICIPAL UTILITY DISTRICT No. 10
OF EL PASO COUNTY**

**Management Discussion and Analysis
For the Year Ended September 30, 2020**

In accordance with Governmental Accounting Standards Board Statement 34 (“GASB 34”), the management of Paseo del Este Municipal Utility District No. 10 of El Paso County (the “District”) offers the following discussion and analysis to provide an overview of the District’s financial activities for the year ended September 30, 2020. Since this information is designed to focus on current year’s activities, resulting changes, and currently known facts, it should be read in conjunction with the District’s financial statements that follow.

FINANCIAL HIGHLIGHTS

- **General Fund:** The unassigned fund balance increased from \$1.327 million at the end of the previous fiscal year to \$1.447 million at the end of the current fiscal year. Revenue increased from \$884 thousand in the previous fiscal year to \$889 thousand in the current fiscal year primarily due a small increase in assessed property values within the District.
- **Debt Service Fund:** The fund balance restricted for debt service increased from \$500 thousand at the end of the previous fiscal year to \$535 thousand at the end of the current fiscal year. Revenue decreased from \$635 thousand in the previous fiscal year to \$610 thousand in the current fiscal year due to a reduction in the debt service tax rate. The District made bond principal payments of \$320 thousand and bond interest payments of \$254 thousand during the fiscal year.
- **Capital Projects Fund:** The fund balance remained unchanged for the year.
- **Governmental Activities:** On a Government-wide basis for governmental activities, the District had revenues in excess of expenses of approximately \$411 thousand. Net assets increased from \$2.6 million to \$3.0 million.

OVERVIEW OF THE DISTRICT

The District, a political subdivision of the State of Texas, was created by an Act of the Texas Legislature. The District was created and organized for the purpose of constructing water, sewer, and drainage facilities and providing water and sewer services to customers within the District. The District has entered into an agreement with Paseo del Este Municipal Utility District #1 (Paseo #1) under which Paseo #1 will serve as the “Master District” for the purpose of providing water acquisition, transportation and treatment, wastewater collection, transportation, treatment and disposal, and drainage facilities and services.

USING THIS ANNUAL REPORT

The District's reporting is comprised of five parts:

- Management's Discussion and Analysis (this section)
- Basic Financial Statements
 - Statement of Net Position and Reconciliation to Governmental Funds Balance Sheet
 - Statement of Activities and Reconciliation to Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds
- Notes to the Financial Statements
- Required Supplementary Information
- Texas Supplementary Information (required by the Texas Commission on Environmental Quality)

The Government-wide statements are reported using the flow of economic resources measurement focus and the full accrual basis of accounting. The Governmental Fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting.

For purposes of GASB 34, the District is considered a special purpose government. This allows the District to present the newly required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the "Governmental Funds Total" column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the Statement of Net Assets and the Statement of Activities.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

The Statement of Net Position and Governmental Funds Balance Sheet includes a column (titled "Governmental Funds Total") that represents a balance sheet prepared using the modified accrual basis of accounting. The adjustments column converts those balances to a balance sheet that more closely reflects a private-sector business. Over time, increases or decreases in the District's net assets will indicate financial health.

The Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances includes a column (titled "Governmental Funds Total") that derives the change in fund balances resulting from current year revenues, expenditures, and other financing sources or uses. These amounts are prepared using the modified accrual basis of accounting. The adjustments column converts those activities to full accrual, a basis that more closely represents the income statement of a private-sector business.

The Notes to the Financial Statements provide additional information that is essential to a full understanding of the information presented in the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances*.

The Required Supplementary Information presents a comparison statement between the District's adopted budget and its actual results.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUND LEVEL STATEMENTS

In comparison to the Government-wide statements, the Fund-level statements focus on the key funds of the District. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The District reports the following types of Governmental funds: General Fund, Debt Service Fund and Capital Projects Fund. The focus of the District's Governmental funds is to provide information on near-term inflows, outflows, and available resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available at the end of the fiscal year.

Summary Balance Sheet

	Governmental Funds		Increase (Decrease)
	(in thousands)		
	September 2020	September 2019

Total Liabilities and Fund Balances	\$ 2,106	\$ 1,857	\$ 249

The General Operating Fund, which pays for daily operating expenses, has a balance of \$1.447 million at the end of the current fiscal year. This is an increase of \$120 thousand over the prior fiscal year.

**PASEO DEL ESTE MUNICIPAL UTILITY DISTRICT No. 10
OF EL PASO COUNTY**

**Management Discussion and Analysis
For the Year Ended September 30, 2020**

The **Debt Service Fund** increased by \$35 thousand during the current fiscal year. This fund remitted bond principal of \$320 thousand and bond interest of \$254 thousand during the year.

The **Capital Projects Fund** remained unchanged for the year.

BUDGETARY HIGHLIGHTS

The Board of Directors adopted the fiscal year 2020 annual budget for the General Fund on September 3, 2019. The budget included revenues of \$886 thousand and expenditures of \$645 thousand. Actual revenue amounted to \$889 thousand and expenditures of \$705 thousand. More detailed information about the District’s budgetary comparison is presented in the Required Supplementary Information section.

CAPITAL ASSETS

The District has invested \$9.6 million in infrastructure. A summary of these assets is listed below:

Summary of Capital Assets

	Governmental Activities		Increase (Decrease)
	(in thousands)		
	September 2020	September 2019

For the Year Ended September 30, 2020**

ECONOMIC FACTORS

The taxable assessed value of property within the District as of January 1, 2020, has been fixed by the El Paso County Appraisal District at \$183 million. The tax rates adopted by the District on September 1, 2020, for the coming fiscal year are \$0.09 for maintenance and operations, \$0.29 for contract tax and \$0.37 for debt service. The District expects this to produce \$1.3 million in total property tax revenue for next year. The adopted budget for fiscal year 2021 projects a small increase in the operating fund balance.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability for the funds it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District in care of Lloyd Gosselink Rochelle & Townsend, PC, 816 Congress Avenue, Suite 1900, Austin, Texas 78701.

**PASEO DEL ESTE MUNICIPAL UTILITY DISTRICT No. 10
OF EL PASO COUNTY
Notes to the Financial Statements
For the Year Ended September 30, 2020**

1. Summary of Significant Accounting Policies

The basic financial statements of Paseo del Este Municipal Utility District No. 10 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the accounting policies are described below.

Paseo del Este Municipal Utility District No. 10 of El Paso County (the District), formerly El Paso County Municipal Utility District No. 1, a political subdivision of the State of Texas, was created by an Act of the Texas Legislature. The District was created and organized for the purpose of constructing water, sewer, and drainage facilities and providing water and sewer services to customers within its boundaries and in the surrounding area. The District has entered into an agreement with Paseo del Este Municipal Utility District No. 1 (Paseo No. 1) under which Paseo No. 1 will serve as the “Master District” for the purpose of providing water acquisition, transportation and treatment, wastewater collection, transportation, treatment and disposal, and drainage facilities and services. Under the terms of this agreement Paseo No. 1 has agreed to provide retail water and wastewater service to customers in the District and reimburse all of the District’s operating expenses in exchange for a commitment from the District to levy an ad valorem tax (contract tax) on property within the District to fund the District’s share of certain costs of Paseo No. 1 not provided for by retail revenues.

These financial statements report the financial activity of Paseo del Este Municipal Utility District No. 10. The reporting entity of the District encompasses those activities and functions over which the District’s elected officials exercise significant oversight or control. The District is governed by a five member Board of Directors (the Board). The funds and account groups presented in this report are within the oversight responsibility of the Board, in accordance with Governmental Accounting Standards Board (GASB) Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting. There are no component units of the District, nor is the District a component unit of any other entity.

A. Basis of Presentation, Basis of Accounting

In accordance with GASB Statement No. 34, the District has elected to combine their Government-wide and Governmental Fund Financial Statements into one set of financial statements with a reconciliation of the individual line items in a separate column on the financial statements.

Government-wide Financial Statements:

The **Statement of Net Position** and the **Statement of Activities** include the financial activities of the overall government. Governmental activities are generally financed through property taxes.

**PASEO DEL ESTE MUNICIPAL UTILITY DISTRICT No. 10
OF EL PASO COUNTY
Notes to the Financial Statements
For the Year Ended September 30, 2020**

1. Summary of Significant Accounting Policies (continued)

The **Statement of Activities** presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function.

Fund Financial Statements:

The governmental fund financial statement columns are labeled **Governmental Funds Balance Sheet** and **Governmental Funds Revenue, Expenditures and Changes in Fund Balance**. In the fund financial statements, the accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. The District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

Debt Service Fund: The Debt Service Fund is used to account for the accumulation of financial resources for, and the payment of, general long term debt principal and interest.

Capital Projects Fund: The Capital Projects Fund is used to account for the acquisition or construction of major capital facilities. Principal sources of revenue are municipal long-term debt proceeds and interest income.

B. Measurement Focus, Basis of Accounting

The Government-wide financial statements are reported using the flow of economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources management focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District does not consider revenues collected after its year end to be available in the current period. Revenues from local sources consist primarily of property taxes. Miscellaneous revenues are recorded as revenues when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long term debt,

which is recognized as an expenditure to the extent that it has matured. General capital asset acquisitions are reported as expenditures in major governmental funds. Proceeds of general long term debt are reported as other financing sources.

C. Fund Balances

The District has adopted GASB Statement No. 54 Fund Balance Reporting and Governmental Fund Type Definitions which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Those fund balance classifications are described below.

Nonspendable – Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

Restricted – Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

Committed – Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board.

Assigned – For the General Fund, amounts that are appropriated by the Board or Board designee, if any, that are to be used for specific purposes. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed.

Unassigned – Amounts that are available for any purpose; these amounts can be reported only in the District's General Fund.

Fund balance of the District may be committed for a specific purpose by formal action of the Board, the District's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board has not delegated the authority to assign fund balance.

D. Budget

The Board adopted an annual budget for the General Fund on the basis consistent with generally accepted accounting principles. The District's Board of Directors utilizes the budget as a management tool for planning and cost control purposes. All annual appropriations lapse at fiscal year end.

E. Pensions

The District has not established a pension plan.

F. Cash and Cash Equivalents

These include cash on deposit as well as investments with maturities of three months or less at the time of purchase.

G. Prepaid Items

Certain payments to vendors reflect costs applicable to future periods and are recorded as prepaid assets in both the government-wide and fund financial statements. Prepaid assets are charged to expenditures when consumed.

H. Capital Assets

Capital assets, which include Administrative Facilities and Equipment, Common and Recreation Areas, Water Production and Distribution System, Wastewater Collection System, Water Quality Ponds and Organizational Costs are reported in the Government-wide column in the Statement of Net Assets. Public domain (“infrastructure”) capital assets including water, wastewater and drainage systems, are capitalized as acquired. Items purchased or acquired are reported at historical cost or estimated historical cost. Contributed fixed assets are recorded as capital assets at estimated fair market value at the time received.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Water/Wastewater/Drainage System	50

I. Interfund Transactions

Transfers from one fund to another fund are reported as interfund receivable and payables if there is intent to repay that amount and if the debtor fund has the ability to repay the advance on a timely basis. Operating transfers represent legally authorized transfers from the fund receiving resources to the fund through which the resources are to be expended.

J. Long-Term Debt

Unlimited tax bonds, which have been issued to acquire capital assets, are to be repaid from tax revenues of the District. In the Government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statement, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums and discounts on debt issuances are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

K. Deferred Outflows and Inflows of Resources

GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the District's net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District's acquisition of net position applicable to a future reporting period. GASB Statement No. 63 became effective for fiscal years beginning after December 15, 2011 and has been implemented in the financial statements.

GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. GASB Statement No. 65 is effective for fiscal years beginning after December 15, 2012 and has been implemented in these financial statements.

L. Recently Issued Accounting Pronouncements

In March 2018, the GASB issued GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*. The objective of GASB Statement No. 88 is to improve the consistency in the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements, and to provide financial statement users with additional essential information about debt. This statement is effective for reporting periods beginning after June 15, 2018. GASB Statement No. 88 has been implemented in these financial statements.

2. Cash and Investments

The investment policies of the District are governed by State statute and an adopted District Investment Policy that includes depository contract provisions and custodial contract provisions. Major provisions of the District's Investment Policy include: depositories must be FDIC-insured Texas banking institutions; depositories must fully insure or collateralize all demand and time deposits; securities collateralizing time deposits are held by independent third-party trustees.

Cash – At year end, deposits were held by the District's depository bank in accounts that were secured at the balance sheet date by Federal Deposit Insurance Corporation (FDIC) coverage or by pledged collateral held by the District's agent bank in the District's name.

Investments - The District is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must be written; primarily emphasize safety of principal and liquidity; address investment diversification, yield, and maturity and the quality and capability of investment management; and include a list of the types of authorized investments in which the investing entity's funds may be invested; and the maximum allowable stated maturity of any individual investment owned by the entity.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as part of the audit of the general purpose financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the District adhered to the requirement of the Act. Additionally, investment practices of the District were in accordance with local policies.

The Act determines the types of investments which are allowable for the District. These include, with certain restriction, (1) obligations of the US Treasury, certain US Agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) banker's acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) commercial paper.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Not all assets meeting the definition of an investment are required to be reported at fair value. Including among excepted investments are certain investments held by 2a7-like external investment pools. As detailed below the District has invested funds in specific 2a7-like external investment pools that are valued at amortized cost and not subject to the fair value hierarchy levels.

2. Cash and Investments (continued)

The District's investments at year end are shown below.

<u>Investment</u>	<u>Fair Value</u>	<u>Level</u>	<u>Rating</u>	<u>Maturity</u>	<u>Fair Value</u>
TexPool		N/A	AAAm	1 day average	\$1,976,569

Analysis of Specific Cash and Investment Risks – GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and, if so, the reporting of certain related disclosures.

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk.

At year end, the District's investments, other than those which are obligations of or guaranteed by the US Government, are rated as to credit quality as detailed above.

Custodial Credit Risk – Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterpart or the counterparty's trust department or agent but not in the District's name. At year end, the District was not exposed to custodial credit risk.

Concentration of Credit Risk – This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

Interest Rate Risk – This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the District was not exposed to interest rate risk.

Foreign Currency Risk – This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

Investment Accounting Policy – The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value.

OF EL PASO COUNTY

2. Cash and Investments (continued)

All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term “short-term” refers to investments which have a remaining term of one year or less at time of purchase. The term “nonparticipating” means that the investment’s value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

Public Funds Investment Pools – Public funds investment pools in Texas (“Pools”) are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the “Act”), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the Pool and other person who do not have a business relationship with the Pool and are qualified to advise the Pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least on nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio with one half of one percent of the value of its shares.

The District’s investments in Pools are reported at an amount determined by the fair value per share of the Pool’s underling portfolio, unless the Pool is 2a7-like, in which case they are reported at share value. A 2a7-like Pool is one which is not registered with the Securities and Exchange Commission (“SEC”) as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC’s Rule 2a7 of the Investment Company Act of 1940.

TexPool – The District invests in the Texas Local Government Investment Pool (TexPool), which is a local government investment pool that was established in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and operates under the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The State Comptroller of Public Accounts oversees TexPool. Federated Investors, Inc. is the administrator and investment manager of TexPool under a contract with the State Comptroller. In accordance with the Public Funds Investment Act, the State Comptroller has appointed the TexPool Investment Advisory Board to advise with respect to TexPool. The board is composed equally of participants in TexPool Portfolios and other persons who do not have a business relationship with TexPool Portfolios and are qualified to advise in respect to TexPool Portfolios. The Advisory Board members review the investment policy and management fee structure. TexPool is rated AAAM by Standard & Poor’s and operates in a manner consistent with the SEC’s Rule 2a7 of the Investment Company Act of 1940. All investments are stated at amortized cost, which usually approximates the market value of the securities. The stated objective of TexPool is to maintain a stable average \$1.00 per unit net asset value; however, the \$1.00 net asset value is not guaranteed or insured. The financial statements can be obtained from the Texas Trust Safekeeping Trust Company website at www.ttstc.org.

3. Property Taxes

Property taxes are considered available when collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. The District levies its taxes on October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by February 1 of the year following the October 1 levy date. Taxes are delinquent if not paid by June 30. Delinquent taxes are subject to both penalty and interest charges plus 20 % delinquent collection fees for attorney costs.

At an election held within the District on November 4, 2003, voters authorized the District to levy an annual ad valorem tax on all taxable property within the District to make certain payments required pursuant to contracts with Paseo No. 1. At an election held on February 3, 2003, voters authorized the levy of a maintenance tax not to exceed \$1.00 per \$100.00 valuation. Property taxes were levied by the District for the 2019-20 fiscal year at the rate of \$0.13 per hundred assessed value for maintenance and operations, \$0.33 for debt service and \$0.29 for the contract tax. The District agreed to remit the contract tax to the Master District under its cost sharing and utility capacity agreement. Uncollected property taxes amounted to \$9,123 at the end of the year.

4. Capital Assets

During the year, the District constructed a Hike and Bike Trail at a cost of \$64,217. All of the District's facilities are being depreciated over their estimated useful life of 50 years. Depreciation in the amount of \$192,087 has been charged to system operations for the year. Accumulated depreciation to date amounts to \$1,921,519 leaving a net book value of \$7,682,843 at year end.

A summary of changes in capital assets follows:

5. Bonds

At an election held within the District on February 3, 2003, voters authorized a total of \$14,000,000 combination unlimited tax and revenue bonds for the purpose of purchasing, constructing, acquiring, owning, improving, extending, maintaining, repairing, or operating a waterworks system, a sanitary sewer system, and a drainage and storm water system for the District. The District's bonds are collateralized by the levy of an annual ad valorem tax against all taxable property within the District. The District has no direct borrowings or direct placement debt.

The District has issued unlimited tax bonds in previous years to finance the acquisition of the water, wastewater and drainage infrastructure from developers. In June 2019 the District issued \$3,145,000 in unlimited tax refunding bonds and used the proceeds to defease \$3,210,000 of the Series 2010 bonds.

The District's bonds are described as follows:

<u>Issue</u>	<u>Original Issue Amount</u>	<u>Installments (In Thousands)</u>	<u>Final Maturity</u>	<u>Interest Rates</u>	<u>Outstanding</u>
Series 2012R	\$2,750,000	\$40 to 715	2033	1.00 – 3.375%	\$2,020,000

5. Bonds (continued)

Redemption

Series 2012R Bonds maturing on or after August 15, 2021, are subject to redemption at the option of the District prior to their maturity dates in whole, or from time to time, in part, on August 15, 2020, or on any date thereafter at a price of par value plus unpaid accrued interest from the most recent interest payment date to the date fixed for redemption. Additionally, term bonds maturing on August 15 in the years 2023, 2027, 2029, and 2033 are subject to mandatory sinking fund redemption.

Series 2013 Bonds maturing on or after August 15, 2023, are subject to redemption at the option of the District prior to their maturity dates in whole, or from time to time, in part, on August 15, 2022, or on any date thereafter at a price of par value plus unpaid accrued interest from the most recent interest payment date to the date fixed for redemption. Additionally, term bonds maturing on August 15 in the years 2025, 2029, 2033 and 2035 are subject to mandatory sinking fund redemption.

Series 2019R Bonds maturing on or after August 15, 2029, are subject to redemption at the option of the District prior to their maturity dates in whole, or from time to time, in part, on August 15, 2028, or on any date thereafter at a price of par value plus unpaid accrued interest from the most recent interest payment date to the date fixed for redemption.

5. Bonds (continued)

Advance Refunding of Debt

GASB Statement No. 7, *Advance Refundings Resulting in Defeasance of Debt*, provides that refunded Debt and assets placed in escrow for the payment of related debt service be excluded from the financial statements. As of September 30, 2019, outstanding balances of bond issues that have been refunded and defeased in-substance by placing existing assets and the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments are as follows:

<u>Bond Issue</u>	<u>Amount</u>
Series 2008	\$2,750,000
Series 2010	\$3,210,000

6. Risk Management

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During the year, the District obtained liability coverage.

7. Contingencies

The District has an obligation to reimburse developers of property in the District costs expended on behalf of the District for the construction of water, sewer and drainage systems designed to serve the District. Since the construction of these facilities is not yet complete, the ultimate amount of the future reimbursements cannot be determined at this time.

8. Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

11. Reconciliation of Government-wide and Fund Financial Statements (continued)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental Funds Excess of Revenues over Expenditures	\$ 220,372
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds	
Change in Deferred Tax Revenue	(3,450)
Governmental funds report capital outlays as expenditures however, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense	
Capital Outlay	64,217
Depreciation Expense	(192,087)
Governmental funds report principal payments as expenditures however, in the Statement of Activities, these payments are not reported as operating expenses	
Bond Principal	320,000
Governmental funds do not report the change in accrued interest as an expenditure, however, in the Statement of Activities, this change in the amount accrued is reported as an expense	
Accrued Interest	2,108
Bond Proceeds are reported as other financing sources in the governmental funds and thus contribute to the change in fund balance. In the Statement of Net Position, however, issuing debt increases long-term liabilities and does not affect the Statement of Activities
