#### **Independent Auditor's Report**

Board of Directors Paseo del Este Municipal Utility District No. 4 Of El Paso County El Paso, Texas

We have audited the accompanying financial statements of the governmental activities and each major fund of Paseo del Este Municipal Utility District No. 4 of El Paso County (the District) as of and for the year ended September 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### **Opinions**

In our opinion the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and each major fund of the District as of September 30, 2023, and the changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing
  an opinion on the effectiveness of the District's internal control. Accordingly, no such
  opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in

accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Texas Commission on Environmental Quality required supplementary schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Texas Commission on Environmental Quality required supplementary schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the property tax assessed value information but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Management Discussion and Analysis For the Year Ended September 30, 2023

In accordance with Governmental Accounting Standards Board Statement 34 ("GASB 34"), the management of Paseo del Este Municipal Utility District No. 4 of El Paso County (the "District") offers the following discussion and analysis to provide an overview of the District's financial activities for the year ended September 30, 2023. Since this information is designed to focus on current year's activities, resulting changes, and currently known facts, it should be read in conjunction with the District's financial statements that follow.

#### FINANCIAL HIGHLIGHTS

- **General Fund:** The unassigned fund balance at the end of the year was approximately \$118 thousand which was an increase of \$49 thousand from the end of the previous year end. Revenue increased from \$201 thousand in the previous fiscal year to \$257 thousand in the current fiscal year primarily due to the increase in assessed value of property within the District.
- **Debt Service Fund:** The District issued \$4.79 million of unlimited tax bonds during the year to secure funds for the acquisition of water, wastewater and drainage facilities. This fund paid \$184 thousand in interest during the year. The District has \$4.79 in outstanding debt at the end of the year.
- Capital Projects Fund: This fund received \$3.9 million of the bond proceeds, net of issuance costs, and used \$3.87 million of that to acquire utility facilities. The fund balance at year end was \$32 thousand.
- **Governmental Activities:** On a Government-wide basis for governmental activities, the District had expenses in excess of revenue of approximately \$286 thousand. Net position decreased from \$124 thousand to negative \$162 thousand. This decrease is primarily due to bond issuance costs.

#### **OVERVIEW OF THE DISTRICT**

The District, a political subdivision of the State of Texas, was created by an Act of the Texas Legislature. The District was created and organized for the purpose of constructing water, sewer, and drainage facilities and providing water and sewer services to customers within the District. The District has entered into an agreement with Paseo del Este Municipal Utility District No. 1 (Paseo No. 1) under which Paseo No. 1 will serve as the "Master District" for the purpose of providing water acquisition, transportation and treatment, wastewater collection, transportation, treatment and disposal, and drainage facilities and services.

#### Management Discussion and Analysis For the Year Ended September 30, 2023

#### USING THIS ANNUAL REPORT

The District's reporting is comprised of five parts:

- Management's Discussion and Analysis (this section)
- Basic Financial Statements
  - Statement of Net Position and Reconciliation to Governmental Funds Balance Sheet
  - Statement of Activities and Reconciliation to Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds
- Notes to the Financial Statements
- Required Supplementary Information
- Texas Supplementary Information (required by the Texas Commission on Environmental Quality)

The Government-wide statements are reported using the flow of economic resources measurement focus and the full accrual basis of accounting. The Governmental Fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting.

For purposes of GASB 34, the District is considered a special purpose government. This allows the District to present the newly required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the "Governmental Funds Total" column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the Statement of Net Assets and the Statement of Activities.

#### OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

The Statement of Net Position and Governmental Funds Balance Sheet includes a column (titled "Governmental Funds Total") that represents a balance sheet prepared using the modified accrual basis of accounting. The adjustments column converts those balances to a balance sheet that more closely reflects a private-sector business. Over time, increases or decreases in the District's net position will indicate financial health.

The Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances includes a column (titled "Governmental Funds Total") that derives the change in fund balances resulting from current year revenues, expenditures, and other financing sources or uses. These amounts are prepared using the modified accrual basis of accounting. The adjustments column converts those activities to full accrual, a basis that more closely represents the income statement of a private-sector business.

#### Management Discussion and Analysis For the Year Ended September 30, 2023

**The Notes to the Financial Statements** provide additional information that is essential to a full understanding of the information presented in the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances*.

**The Required Supplementary Information** presents a comparison statement between the District's adopted budget and its actual results.

#### Management Discussion and Analysis For the Year Ended September 30, 2023

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUND LEVEL STATEMENTS

In comparison to the Government-wide statements, the Fund-level statements focus on the key funds of the District. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The District reports the following types of Governmental funds: General Fund, Debt Service Fund and Capital Projects Fund. The focus of the District's Governmental funds is to provide information on near-term inflows, outflows, and available resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available at the end of the fiscal year.

Notes to the Financial Statements For the Year Ended September 30, 2023

#### 1. Summary of Significant Accounting Policies

The basic financial statements of Paseo del Este Municipal Utility District No. 4 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the accounting policies are described below.

Paseo del Este Municipal Utility District No. 4 of El Paso County (the District), a political subdivision of the State of Texas, was created by an Act of the Texas Legislature. The District was created and organized for the purpose of constructing water, sewer, and drainage facilities and providing water and sewer services to customers within its boundaries and in the surrounding area. The District has entered into an agreement with Paseo del Este Municipal Utility District No. 1 (Paseo No. 1) under which Paseo No. 1 will serve as the "Master District" for the purpose of providing water acquisition, transportation and treatment, wastewater collection, transportation, treatment and disposal, and drainage facilities and services. Under the terms of this agreement Paseo No. 1 has agreed to provide retail water and wastewater service to customers in the District and reimburse all of the District's operating expenses in exchange for a commitment from the District to levy an ad valorem tax (contract tax) on property within the District to fund the District's share of certain costs of Paseo No. 1 not provided for by retail revenues.

These financial statements report the financial activity of Paseo del Este Municipal Utility District No. 4. The reporting entity of the District encompasses those activities and functions over which the District's elected officials exercise significant oversight or control. The District is governed by a five-member Board of Directors (the Board). The funds and account groups presented in this report are within the oversight responsibility of the Board, in accordance with Governmental Accounting Standards Board (GASB) Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting. There are no component units of the District, nor is the District a component unit of any other entity.

#### A. Basis of Presentation, Basis of Accounting

In accordance with GASB Statement No. 34, the District has elected to combine their Government-wide and Governmental Fund Financial Statements into one set of financial statements with a reconciliation of the individual line items in a separate column on the financial statements.

#### **Government-wide Financial Statements:**

The **Statement of Net Position** and the **Statement of Activities** include the financial activities of the overall government. Governmental activities are generally financed through property taxes.

#### Notes to the Financial Statements For the Year Ended September 30, 2023

#### 1. Summary of Significant Accounting Policies (continued)

The **Statement of Activities** presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function.

#### **Fund Financial Statements:**

The governmental fund financial statement columns are labeled **Governmental Funds Balance Sheet** and **Governmental Funds Revenue**, **Expenditures and Changes in Fund Balance**. In the fund financial statements, the accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. The District reports the following major governmental funds:

**General Fund**: This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

**Debt Service Fund**: The Debt Service Fund is used to account for the accumulation of financial resources for, and the payment of, general long-term debt principal and interest.

**Capital Projects Fund**: The Capital Projects Fund is used to account for the acquisition or construction of major capital facilities. Principal sources of revenue are municipal long-term debt proceeds and interest income.

#### B. Measurement Focus, Basis of Accounting

The Government-wide financial statements are reported using the flow of economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources management focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District does not consider revenues collected after its year end to be available in the current period. Revenues from local sources consist primarily of property taxes. Miscellaneous revenues are recorded as revenues when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long term debt,

#### 1. Summary of Significant Accounting Policies (continued)

which is recognized as an expenditure to the extent that it has matured. General capital asset acquisitions are reported as expenditures in major governmental funds. Proceeds of general long-term debt are reported as other financing sources.

#### C. Fund Balances

The District has adopted GASB Statement No. 54 Fund Balance Reporting and Governmental Fund Type Definitions which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Those fund balance classifications are described below.

<u>Nonspendable</u> – Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

<u>Restricted</u> – Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

<u>Committed</u> – Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board.

<u>Assigned</u> – For the General Fund, amounts that are appropriated by the Board or Board designee, if any, that are to be used for specific purposes. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed.

<u>Unassigned</u> – Amounts that are available for any purpose; these amounts can be reported only in the District's General Fund.

Fund balance of the District may be committed for a specific purpose by formal action of the Board, the District's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board has not delegated the authority to assign fund balance.

#### D. Budget

The Board adopted an annual budget for the General Fund on the basis consistent with generally accepted accounting principles. The District's Board of Directors utilizes the budget as a management tool for planning and cost control purposes. All annual appropriations lapse at fiscal year end.

#### Notes to the Financial Statements For the Year Ended September 30, 2023

#### 1. Summary of Significant Accounting Policies (continued)

#### E. Pensions

The District has not established a pension plan.

#### F. Cash and Cash Equivalents

These include cash on deposit as well as investments with maturities of three months or less at the time of purchase.

#### G. Prepaid Items

Certain payments to vendors reflect costs applicable to future periods and are recorded as prepaid assets in both the government-wide and fund financial statements. Prepaid assets are charged to expenditures when consumed.

#### H. Capital Assets

Capital assets, which include Administrative Facilities and Equipment, Common and Recreation Areas, Water Production and Distribution System, Wastewater Collection System, Water Quality Ponds and Organizational Costs are reported in the Government-wide column in the Statement of Net Position. Public domain ("infrastructure") capital assets including water, wastewater and drainage systems, are capitalized as acquired. Items purchased or acquired are reported at historical cost or estimated historical cost. Contributed fixed assets are recorded as capital assets at estimated fair market value at the time received.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Water/Wastewater/Drainage System	50

#### I. Interfund Transactions

Transfers from one fund to another fund are reported as interfund receivable and payables if there is intent to repay that amount and if the debtor fund has the ability to repay the advance on a timely basis. Operating transfers represent legally authorized transfers from the fund receiving resources to the fund through which the resources are to be expended.

#### Notes to the Financial Statements For the Year Ended September 30, 2023

#### 1. Summary of Significant Accounting Policies (continued)

#### J. Long-Term Debt

Unlimited tax bonds, which will be issued in the future to acquire capital assets, are to be repaid from tax revenues of the District. In the Government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statement, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums and discounts on debt issuances are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

#### K. Deferred Outflows and Inflows of Resources

GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the District's net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District's acquisition of net position applicable to a future reporting period. GASB Statement No. 63 became effective for fiscal years beginning after December 15, 2011 and has been implemented in the financial statements.

GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. GASB Statement No. 65 is effective for fiscal years beginning after December 15, 2012 and has been implemented in these financial statements.

#### L. Recently Issued Accounting Pronouncements

In March 2018, the GASB issued GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements. The objective of GASB Statement No. 88 is to improve the consistency in the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements, and to provide financial statement users with additional essential information about debt. This statement is effective for reporting periods beginning after June 15, 2018. GASB Statement No. 88 has been implemented in these financial statements.

#### Notes to the Financial Statements For the Year Ended September 30, 2023

#### 1. Summary of Significant Accounting Policies (continued)

In June 2018, the GASB issued GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, effective for fiscal years beginning after December 15, 2020. The objective of GASB Statement No. 89 is to enhance the relevance and comparability of information about capital assets and to simplify accounting for interest costs incurred before the end of a construction period. Under GASB Statement 89, interest costs will no longer be capitalized as part of the asset but will be shown as an expenditure in the fund financial statements and as an expense in the government-wide financial statements. GASB Statement No. 89 has been implemented in these financial statements.

#### 2. Cash and Investments

The investment policies of the District are governed by State statute and an adopted District Investment Policy that includes depository contract provisions and custodial contract provisions. Major provisions of the District's Investment Policy include: depositories must be FDIC-insured Texas banking institutions; depositories must fully insure or collateralize all demand and time deposits; securities collateralizing time deposits are held by independent third-party trustees.

**Cash** – At year end, deposits were held by the District's depository bank in accounts that were secured at the balance sheet date by Federal Deposit Insurance Corporation (FDIC) coverage or by pledged collateral held by the District's agent bank in the District's name.

**Investments** - The District is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must be written; primarily emphasize safety of principal and liquidity; address investment diversification, yield, and maturity and the quality and capability of investment management; and include a list of the types of authorized investments in which the investing entity's funds may be invested; and the maximum allowable stated maturity of any individual investment owned by the entity.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as part of the audit of the general purpose financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the District adhered to the requirement of the Act. Additionally, investment practices of the District were in accordance with local policies.

The Act determines the types of investments which are allowable for the District. These include, with certain restriction, (1) obligations of the US Treasury, certain US Agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) banker's acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) commercial paper.

#### Notes to the Financial Statements For the Year Ended September 30, 2023

#### 2. Cash and Investments (continued)

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Not all assets meeting the definition of an investment are required to be reported at fair value. Including among excepted investments are certain investments held by 2a7-like external investments pools. As detailed below the District has invested funds in specific 2a7-like external investment pools that are valued at amortized cost and not subject to the fair value hierarchy levels.

The District's investments at year end are shown below.

	Fair Value			
<u>Investment</u>	Level	<u>Rating</u>	<u>Maturity</u>	Fair Value
TexPool	N/A	AAAm	1 day average	\$ 684,557

**Analysis of Specific Cash and Investment Risks** – GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and, if so, the reporting of certain related disclosures.

*Credit Risk* – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk.

At year end, the District's investments, other than those which are obligations of or guaranteed by the US Government, are rated as to credit quality as detailed above.

Custodial Credit Risk – Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterpart or the counterparty's trust department or agent but not in the District's name. At year end, the District was not exposed to custodial credit risk.

Concentration of Credit Risk – This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

#### Notes to the Financial Statements For the Year Ended September 30, 2023

#### 2. Cash and Investments (continued)

*Interest Rate Risk* – This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the District was not exposed to interest rate risk.

Foreign Currency Risk – This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

**Investment Accounting Policy** – The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value.

All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

**Public Funds Investment Pools** – Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the Pool and other person who do not have a business relationship with the Pool and are qualified to advise the Pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least on nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio with one half of one percent of the value of its shares.

The District's investments in Pools are reported at an amount determined by the fair value per share of the Pool's underling portfolio, unless the Pool is 2a7-like, in which case they are reported at share value. A 2a7-like Pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

**TexPool** – The District invests in the Texas Local Government Investment Pool (TexPool), which is a local government investment pool that was established in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and operates under the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The State Comptroller of Public Accounts oversees TexPool. Federated Investors, Inc. is the administrator and investment manager of TexPool under a contract with the State Comptroller.

#### Notes to the Financial Statements For the Year Ended September 30, 2023

#### 2. Cash and Investments (continued)

In accordance with the Public Funds Investment Act, the State Comptroller has appointed the TexPool Investment Advisory Board to advise with respect to TexPool. The board is composed equally of participants in TexPool Portfolios and other persons who do not have a business relationship with TexPool Portfolios and are qualified to advise in respect to TexPool Portfolios. The Advisory Board members review the investment policy and management fee structure. TexPool is rated AAAm by Standard & Poor's and operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. All investments are stated at amortized cost, which usually approximates the market value of the securities. The stated objective of TexPool is to maintain a stable average \$1.00 per unit net asset value; however, the \$1.00 net asset value is not guaranteed or insured. The financial statements can be obtained from the Texas Trust Safekeeping Trust Company website at <a href="https://www.ttstc.org">www.ttstc.org</a>.

#### 3. Property Taxes

Property taxes are considered available when collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. The District levies its taxes on October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by February 1 of the year following the October 1 levy date. Taxes are delinquent if not paid by June 30. Delinquent taxes are subject to both penalty and interest charges plus delinquent collection fees for attorney costs.

At an election held within the District on May 10, 2014, voters authorized the District to levy an annual ad valorem tax on all taxable property within the District for operation and maintenance purposes and to make certain payments required pursuant to contracts with Paseo No. 1. Voters authorized the levy of a maintenance tax not to exceed \$1.00 per \$100.00 valuation. Property taxes were levied by the District for the 2022-23 fiscal year at the rate of \$0.0251 per hundred assessed value for maintenance and operations, \$0.4349 per hundred assessed value for debt service and \$0.29 per hundred assessed value for contract tax. The District agreed to remit \$0.29 per hundred assessed value, the contract tax, to the Master District under its cost sharing and utility capacity agreement. Uncollected property taxes amounted to \$-0- at the end of the year.

#### 5. Bonds

At an election held within the District on May 10, 2014, voters authorized a total of \$30,000,000 combination unlimited tax and revenue bonds for the purpose of purchasing, constructing, acquiring, owning, improving, extending, maintaining, repairing, or operating a waterworks system, a sanitary sewer system, and a drainage and storm water system for the District. The election also authorized the issuance of \$30,000,000 of refunding bonds and it also authorized the issuance of contract tax bonds. The District's bonds are collateralized by the levy of an annual ad valorem tax against all taxable property within the District. The District has no direct borrowings or direct placement debt.

In October 2022, the District issued \$4,790,000 of Unlimited Tax Bonds dated October 1, 2022. The bonds mature serially on August 15, in each year 2024 through 2047, in principal amounts set forth below. Bonds maturing on or after August 15, 2029, are subject to redemption, in whole or in part, on August 15, 2028, or on any date thereafter, at a price equal to the principal amount thereof plus accrued interest thereon to the date fixed for redemption. Bonds maturing in the years 2034, 2036, 2038, 2040 and 2047 are also subject to mandatory sinking fund redemption.

These bonds are described as follows:

	Original	Installments	Final	Interest	Balance
<u>Issue</u>	Amount	(in thousands)	Maturity	Rates	Outstanding
Series 2022	4,790,000	105 to 330	2047	4.0 - 5.000%	4,790,000

<b>Total Bond Indebtedness</b>	\$		4,646,300	5,748	•	4,652,048

#### Redemption

Series 2022

Bonds maturing on or after August 15, 2029, are subject to redemption at the option of the District prior to their maturity dates in whole, or from time to time, in part, on August 15, 2028, or on any date thereafter at a price of par value plus unpaid accrued interest from the most recent interest payment date to the date fixed for redemption. Additionally, term bonds maturing on August 15 in the years 2034, 2036, 2038, 2040 and 2047 are subject to mandatory sinking fund redemption.

#### Notes to the Financial Statements For the Year Ended September 30, 2023

#### 6. Risk Management

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During the year, the District obtained liability coverage.

#### 7. Contingencies

The District has an obligation to reimburse developers of property in the District costs expended on behalf of the District for the construction of water, sewer and drainage systems designed to serve the District. Since the construction of these facilities is not yet complete, the ultimate amount of the future reimbursements cannot be determined at this time.

#### 8. Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### Notes to the Financial Statements For the Year Ended September 30, 2023

#### 9. Summary of General Fund Items

As mentioned in Note 1, the District has entered into agreements with Paseo del Este Municipal District No. 1. Among other things, these agreements require Paseo 1 to reimburse the District's operating expenses and require the District to remit to Paseo 1 the District's Contract Tax collections. The table below summarizes the different elements of these requirements as they affect the District's General Fund.

The District has evaluated subsequent events as of December 31, 2023, the date the financial statements were available to be issued.

#### 11. Reconciliation of Government-wide and Fund Financial Statements

Amounts reported for governmental activities in the statement of net position are different because:

Governmental Funds Total Fund Balances	\$ 729,601
Capital assets used in governmental activities are not financial	
resources and, therefore, are not reported in the funds	3,790,187
Long-term liabilities (bonds payable) are not due and payable in	
the current period and, therefore, are not reported in the funds	(4,652,048)
Interest is accrued on outstanding debt in the government-wide	
statements, whereas in the governmental funds, an interest	
expenditure is reported when made and not accrued in the funds	(29,720)
Deferred tax revenue is not available to pay for current period	
expenditures and, therefore, is deferred in the funds
